Instructions to access the NDIS modules

If the TechDiversity judges would like a closer look at the two NDIS modules and their features, they will just need to create an account via the NDIS Quality and Safeguards Commission website. Please do not publish this document publicly.

Then you will need to create a new account. If you are returning after creating an account, you can use the Log In section.
Fill out the new account form and you will receive an email confirmation. You will then need to enrol into the module by clicking *Enrol me*.

You can then begin the module by clicking *Supporting Safe and Enjoyable Meals* under *Start the module*. The module will open up in a popup window for you to explore.
